

TOWN OF ITHACA, NY

Director of Engineering

STARTING SALARY: \$114,254/yr.

New York State Retirement Pension or TIAA-Cref -SUNY

Excellent Family Friendly Benefits Package, including set schedule with flexibility to manage hours, paid time off banks, and excellent health insurance.

The Position

The Town of Ithaca, NY is seeking a Director of Engineering that is responsible for directing the operation of the Town Engineering Department. The Director of Engineering is also responsible for managing the Town's water and sewer services, in coordination with the Director of Public Works. The employee may be appointed by the Town Board as the required designee "Town Engineer", which is responsible for providing professional engineering advice to the Town Board and other Town officials. The Director will follow the broad policy guidance of the Town Board. The ideal candidate will be a dynamic, visionary leader who can bring together the various elements of the community and the leadership of the Town in order to meet a broad spectrum of community needs. They must have the ability to articulate and promote the Town's commitment to sustainable development, innovative infrastructure design, and proactive maintenance.

The successful candidate will possess a record of accomplishments and creativity in planning and managing water, sewer, roads and other Public Works capital projects. Additionally, the ideal candidate will demonstrate a proven ability to lead, mentor and motivate the talented engineering team to achieve the Town's goals. It is imperative that the new Director continues to work collaboratively with other Town Departments and outside agencies.

Why Apply?

Town of Ithaca prides itself on employee involvement and great customer service. Our residents, year-after-year, have praised our staff as having excellent customer service skills.

The Town's 60 employees have rated the organization high on being an ethical and moral organization with an emphasis on being a family friendly organization.

Managers encourage and promote a culture of collaboration, open communication and commitment.

VALUES

Town of Ithaca values a diverse, respectful, productive, and fulfilling workplace and provides its management staff with a range of responsibilities intended to realize those values.

The Director of Engineering will play a key leadership role in developing and sustaining an inclusive culture that enables a diverse workforce to perform at a high level.

The Community

Tompkins County boasts beautiful rural areas, quiet villages, farms, and open land surrounding our population center.

Ithaca, which is our county seat, has a small-town atmosphere but showcases the qualities

of a much larger city through an abundance of

restaurants, theatre, arts, shopping, cultural, and recreational activities. Three institutions of higher learning – Cornell University, Ithaca College, and Tompkins Cortland Community College – make education our top industry. The county is an employment center for the region and features a healthy economy, a strong human services sector, a local medical center, a public transportation network, a regional airport, and three State parks. The region offers endless recreational opportunities including golfing, hiking, mountain biking, boating, skiing (snow and water), canoeing, wind surfing, and fishing. There are numerous family-friendly community oriented festivals and events.
